

ARTISTRY SKILL COMPASSION

By

**DR. BENJAMIN
SCHLECHTER**

NORTH SHORE AESTHETICS
NORTHBROOK, ILLINOIS

Treating patients like family is of

utmost importance to Dr. Benjamin Schlechter and he brings this attentive approach to patients at North Shore Aesthetics. "I have made my dream a reality by offering my patients the most cutting-edge technology and surgical techniques and affording them the highest level of care," says Dr. Schlechter. With an on-site medspa, patients can choose from an array of surgical and noninvasive procedures to meet their needs. "Our state-of-the-art facility surpasses all state guidelines and we aim to provide patients with an exceptional surgical experience," adds the doctor. High patient referral rates have afforded him a far-reaching reputation in the greater Chicago area.

“

*I treat every patient
as I would expect
to be treated.*

WHO I AM

1.

THREE THINGS EVERYONE SHOULD DO BEFORE SURGERY

Be sure that your doctor is certified by the American Board of Plastic Surgery and that you have complete trust in them and they've answered all of your questions

2.

THE BIGGEST MISCONCEPTION ABOUT MY FIELD

The idea of minimally invasive surgery. Patients don't understand that it's still surgery and will require some recovery. It may not be as long of a recovery, but often they still need to take it easy. They also expect that minimally invasive should mean less expensive, which is not often the case. The technology that allows for less-invasive procedures that yield the best results, such as a laser necklift, utilizes cutting-edge equipment

3.

HOW I PUT MY PATIENTS AT EASE

By listening to their concerns and offering a wide array of surgical, minimally invasive and noninvasive procedures, I'm able to meet most expectations and budgets. I also carefully explain the limitations of each and every procedure to help patients understand what is and is not possible

4.

WHAT SETS MY PRACTICE APART

When I opened North Shore Aesthetics, I spared no expense in equipping my operating room suite and exceeding all AAAASF guidelines. We comply with the most stringent set of standards available in the nation and meet the strict requirements for facility directors, staff credentials and specialist certification

Reshape and Refine

This 37-year-old patient was unhappy with the prominent hump on her nasal bridge and underwent a rhinoplasty to refine the angle and shape of her nose.
